

upCLOSE
Magazine

Works for us!

Dr. Thomas Lomonte, D.D.S.

"The only advertising I do is in UpClose Magazine. In February I had almost thirty new patients from the article alone. For my business, the effect has been cumulative. I've been in the magazine for a long time and it's paying off. They do a great job and all my patients mention seeing the articles. It gives the personal touch to your products."

Donna Braunreiter MS, co-owner of You Only Younger
"Out of all the print media we have tried, UpClose Magazine is the only thing that has worked without fail. Whenever we put an ad in, we get calls."

Dr. Quynh-Thu "Gigi" Doan, MD

"Since we signed on with UpClose, we've seen a huge increase in business. Several patients mentioned seeing me in the magazine and one said she felt like I was talking to her...the article sounded just like me! In fact, UpClose has been so successful for my practice that I'm no longer seeking new patients. Their advertising worked so well that I don't need to advertise any more at all!"

Max McCammond, founder of Professional Maids
"We have advertised with UpClose since we opened our doors over a decade ago. The articles really express the personality of our company and draw the right attention from interested clients."
